

for reliable rotation in maintenance and production

BETEX®

INDUCTION HEATERS, 24 kVA

For professional use in industry and industrial services

INDUCTION HEATING is a superior, fast and controlled heating method. It is a safe and environmentally-friendly alternative for traditional heating methods such as ovens, oil baths or blow torches. BETEX® induction heaters ensure optimum control during the heating process, automatically regulating the most efficient use of power to ensure a balanced and fast heating.

Even, tension-free heating prevents unnecessary damage and retains original lubrication. Ideal for sealed bearings (2RS-ZZ).

BETEX® TURBO heaters have the additional advantage of a low energy consumption (max. 24 kVA) combined with a high output.

Betex Super

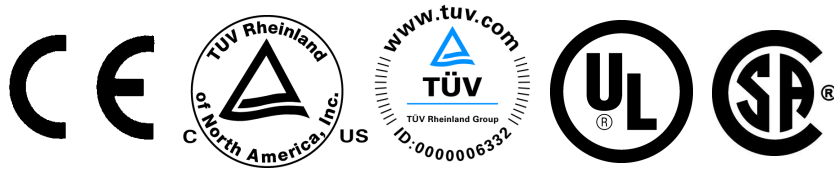

Betex Super **TURBO**

Price including; Manual, Service kit and Magnetic temperature sensor; 3 years warranty on the electrical unit.

Technical specifications:

Model	: Betex Super	Betex Super TURBO
Min. I.D.	: 60 mm	145 mm / Ø195 mm
Max. O.D.	: 900 mm	1700 mm
Max. width	: 400 mm	600 mm
Max. weight bearing	: 600 kg	1200 kg
Max. weight other work pieces	: 350 kg	900 kg
